March 20, 2017

To Whom It May Concern:

The Alabama Department of Forensic Sciences Mobile Medical Office had an osteometric table with labels 61-3801 and 061-00958 listed on the table. The table has not been in use and has been inside the morgue cooler for years. It was determined that as the table is not in use, it should be sent for surplus. However, due to the table being used on decedents and being in the morgue cooler, it is a biohazard that cannot be decontaminated and released to the general public. The table was sent with our biohazardous materials to be destroyed.

Sincerely,
Sherrie L. Saint
